

Create your own conservation wreath

Make your own conservation decoration! Featuring colouring-in designs by one of our talented keepers, Wallaby Tea, hang this wreath in your home to show your commitment to conservation this Christmas.

Instructions:

1. Cut out a wreath shape from recycled cardboard - this could be your leftover cereal box or tissue box!
2. Colour in the 12 days of conservation Christmas animals
3. Carefully cut around each animal and stick them to the cardboard wreath
4. Make a hole in the top of the wreath and loop a piece string or ribbon through and tie the ends together.
5. Hang your conservation decoration around your home and send us a picture at pr@zoossa.com.au!
